

International scientific-practical conference
«Malignant tumor management of hepatobiliary system»
Irkutsk, November 29-30, 2018

PROGRAM

Day 1

Thursday, November 29, 2018
Regional Cancer Center
Conference-hall

8.00-8.30	Participant registration
8.30	Conference opening Greeting of conference participants
9.00-09.20	Chairmen: professor Dvornichenko V.V., professor Vishnevskij V.A., professor B. Rau, Course introduction. Presentation on hepatobiliary system tumors (HBS): staging and risk management <i>Beate Rau</i> , professor, PhD, , board member of European Society of Surgical Oncology, clinic director of general, visceral, vascular and thoracic surgery, Charite clinic, Germany
9.20-9.40	Treatment tactics on colorectal cancer with metastatic liver lesion <i>Rodion Ismagilovich Rasulov</i> , PhD, professor, deputy head physician for surgical work, Regional Cancer Center (Irkutsk)
9.40-10.00	Preoperative radiological staging: its urgency <i>Bernhard Gebauer</i> , professor, PhD, head of radiology department, Charite clinic, Berlin
10.00-10.20	Role of laparoscopical staging in clinical tactic choice <i>Beate Rau</i> , professor, PhD, , board member of European Society of Surgical Oncology, clinic director of general, visceral, vascular and thoracic surgery, Charite clinic, Germany
10.20-10.40	On preoperative chemotherapy inadvisability of resectable metastases of colorectal cancer in liver <i>Aleksej Genadyevich Kotelnikov</i> , PhD, professor, leading researcher at the surgical treatment of liver and pancreas tumor department of RONC of N.N. Botkin (Moscow)
10.40-11.00	Accelerated recovery after the surgery (ERAS): prophylactics and treatment of postsurgical and chemotherapeutic complications <i>Fritz Klein</i> , PhD, surgeon, Charite university clinic, Berlin
11.00-11.30	Coffee break
11.30-11.50	Presentation on primary liver tumors: cholangiocellular carcinoma and hepatocellular carcinoma Current state of the problem <i>Hauke Lang</i> , PhD, professor, head of hepatobiliary surgery, transplantation and visceral surgery clinic, Medical center of Johannes Gutenberg university, Mainz, Germany

International scientific-practical conference
«Malignant tumor management of hepatobiliary system»
 Irkutsk, November 29-30, 2018

11.50-12.10	Extensive liver resection <i>Vladimir Aleksandrovich Vishnevskij</i> , PhD, professor, head of liver and pancreas surgery department of surgical university of A.V. Vishnevskij (Moscow)
12.10-12.30	Chemotherapy, targeted and immune therapy indications <i>Marianne Zinn</i> , PhD, hematology and oncology clinic, Charite university clinic, Berlin
12.30-12.50	Interventional approaches (selective intravenous radiotherapy with spheres 90Y, high-frequency ablation, chemoembolization): when? what? <i>Bernhard Gebauer</i> , professor, PhD, head of radiology department, Charite clinic, Berlin
12.50-13.10	High-power brachytherapy – current treatment option for patients with biliar-pancrea-duodenal area tumors <i>Georgij Otarovich Rukhadze</i> , PhD, senior researcher at ray and surgical treatment of abdominal area diseases department MRNC of A.F. Tsyba – branch FGBU “NMIC Radiology” HM RF
13.10	Lunch
14.00-14.20	Chairmen: professor E.F. Kim, professor A.A. Kostin, professor B. Gebauer Relative liver transplant <i>Eduard Feliksovich Kim</i> , PhD, professor, deputy director of RNCH of academician B.V. Petrovskogo (Moscow)
14.20-14.40	On agreeing on Transplantation for benign and malignant liver diseases FGBU «National medical research center of transplantology and artificial organs of academician V.I. Shumakov» (Moscow)
14.40-15.00	Surgery: how far can we go <i>Hauke Lang</i> , PhD, professor, head of hepatobiliary surgery, transplantation and visceral surgery clinic, Medical center of Johannes Gutenberg university, Mainz, Germany
15.00-15.20	Possibilities of prognosis and surgical prophylactics of post resection hepatic failure in patients with primary metastatic liver cancer <i>Leonid Olegovich Petrov</i> , medical sciences candidate, head of ray and surgical treatment of abdominal area diseases MRNC of A.F. Tsyba - branch FGBU “NMIC Radiology” HM RF
15.30	Coffee break
16.00-16.20	Advice and recommendation on reducing perioperative complications <i>Robert Ellinger</i> , PhD, surgeon, Charite university clinic, Germany
16.20–16.40	Chemoembolization in hepatocellular cancer during liver cirrhosis <i>Dmitrij Anatolyevich Granov</i> , corresponding member of RAS, PhD, professor, head of interventional and operative surgery department of FGBU «Russian scientific center of radiology and surgical technologies» (Sankt-Petersburg)
16.40-17.00	Treatment tactics in resectable metastases of colorectal cancer in liver of patients with unfavorable prognosis <i>Konstantin Grigoryevish Mamontov</i> , PhD, head of roentgenological treatment methods department of KGBUZ «Altaj Region Cancer Center» (Barnaul)
17.00	End of the first day Conclusion, discussion

International scientific-practical conference
«Malignant tumor management of hepatobiliary system»
 Irkutsk, November 29-30, 2018

Day 2

Friday, November 30, 2018
Regional Cancer Center
Conference-hall

8.30-9.00	Chairmen: professor A.G. Kotelnikov, professor Beate Rau Presentation on pancreatic cancer: head and tail Treatment strategy in pancreatic cancer <i>Aleksej Gennadyevich Kotelnikov</i> , PhD, professor, leading researcher at surgical treatment of liver and pancreas tumors department of RONC of N.N. Blokhin (Moscow)
9.00-9.20	Is preoperative treatment necessary at all times? <i>Marianne Zinn</i> , PhD, oncology and hematology department, Charite university clinic, Berlin
9.20-9.40	Neoadjuvant treatment of pancreas head cancer <i>Rodion Ismagilovich Rasulov</i> , PhD, professor, deputy head physician for surgical work, Regional Cancer Center (Irkutsk)
9.40-10.00	Methods and advice in surgery of pancreas <i>Ignace de Hing</i> , PhD, head of surgical department, Catharina Cancer Institute, Eindhoven, Netherlands
10.00-10.20	Indications for laparoscopic\ robotic surgery in pancreatic cancer <i>Moriz Schmeltse</i> , professor, PhD, Charite university clinic, Berlin
10.20-10.40	Surgery Applebee (distal pancreatectomy with celiac artery resection) <i>Ignace de Hing</i> , PhD, head of surgical department, Catharina Cancer Institute, Eindhoven, Netherlands
11.00	Coffee break
11.30-11.45	Mesenteric access in pancreatoduodenal resection <i>Yansan Erdene-Ochir</i> , professor, leading surgeon of National Oncology Center of Mongolia (Ulan-Baator)
11.45-12.00	Supporting treatment and life quality of patients after in distal pancreatic cancer <i>Marianne Zinn</i> , PhD, oncology and hematology department, Charite university clinic, Berlin
12.15-12.30	Pancreatodigestive anastomosis – unsolved problem in gastric pancreatoduodenal resection <i>Rodion Ismagilovich Rasulov</i> , PhD, professor, deputy head physician for surgical work, Regional Cancer Center (Irkutsk)
12.30-12.45	Surgery centralization of hepatobiliary system <i>Ignace de Hing</i> , PhD, head of surgical department, Catharina Cancer Institute, Eindhoven, Netherlands
12.45-13.00	Complications and their treatment <i>Hauke Lang</i> , PhD, professor, head of hepatobiliary surgery, transplantation and visceral surgery clinic, Medical center of Johannes Gutenberg university, Mainz, Germany
13.00	Lunch

International scientific-practical conference
«Malignant tumor management of hepatobiliary system»
 Irkutsk, November 29-30, 2018

13.30-13.45	Chairmen: Dmitrij Anatolyevich Granov, corresponding member of RAS, professor Chinburen Clinical cases discussion Laparoscopic liver resection <i>Moritz Schmeltse</i> , professor, PhD, Charite university clinic, Berlin
13.45-14.10	Cases of successful combined treatment of colorectal cancer metastases in liver <i>Dmitrij Anatolyevich Granov</i> , corresponding member of RAS, PhD, professor, head of interventional radiology and operative surgery department FGBU «Russian scientific center of radiology and surgical technologies» (Sankt-Petersburg)
14.10-14.30	Complex treatment of multiple synchronous and metachronous metastases in liver <i>Bernhard Gebauer</i> , professor, PhD, head of radiology department, Charite clinic, Berlin
14.30-14.45	Contemporary treatment: indications and results (liver, necessity of preoperative preparation <i>Marianne Zinn</i> , PhD, oncology and hematology department, Charite university clinic, Berlin
14.45-15.00	
15.00-15.15	Advice and recommendations on metastatic liver lesion surgery: steps in liver resection, ALPPS <i>Robert Ellinger</i> , PhD, surgeon, Charite university clinic, Germany
15.30	Coffee break
16.00-16.15	Interactive clinical case discussion: problems in operating room <i>Fritz Klein</i> , PhD, surgeon, Charite university clinic, Berlin
16.15-16.30	Late and early complications <i>Moritz Schmeltse</i> , professor, PhD, Charite university clinic, Berlin
16.30-16.45	Contemporary aspects of primary liver cancer treatment <i>Igor Sergeevich Bazin</i> , PhD, senior researcher at clinical pharmacology and chemotherapy department FGBU «NMIC oncology of N.N. Blokhin» Health Ministry of Russia
16.45-17.00	Discussion, commentary, questions, methods of surgery conduct \ master classes Conference closing

Operating plan (surgeries will be broadcasted in conference-hall)

29.11.18

Morning: laparoscopic rightsided hemihepatectomy (German surgeons)

Noon: central liver resection (Mongolian surgeons) / or 2nd laparoscopic anatomic liver resection (German surgeons)

30.11.18

Morning: extended gastric pancreatoduodenal resection (Irkutsk surgeons)

Noon: laparoscopic liver resection (German surgeons)

International scientific-practical conference
«Malignant tumor management of hepatobiliary system»
Irkutsk, November 29-30, 2018

Participants receive international certificate of European board for accreditation in postgraduate medical education.
